**NOTE:** This template distribution list is organized for use as a mail merge document in WORD, which is easily associated as a resource file for letters and labels. The first two columns are only informational of jurisdictional affiliation, and association with the NEPA process. The names and addresses listed are applicable statewide. Listings without names, or with italicized wording are for use in tailoring distribution to a specific project. To economize printing costs, CD's are an economical choice for both the Draft and Final Section 4(f) Evaluations.
